Subject: Text messages must NOT be exempt
Importance: High

It is crucial to open government in Wisconsin that text messages NOT be exempt from the state's open records law. Wisconsin's long history of open government is being eroded by the current administration and this must not be further damaged by making text messages exempt.

Wisconsin and its citizens deserve open government and it's up to you to do what is best for all of us – keep the open records law alive and keep politicians accountable to the people.

Thank you,

Patricia Dayton
