Subject: The need for the availability of ALL Public Records to the voters

I am very upset about the fact that the Pubic Records Board has taken it upon itself to keep decision making secret from the public. Records, even those you have defined as "transitory records" need to be kept. It should be left to the public to determine whether the information is of value. It seems that too much is being done in the dark of night and behind closed doors in Madison these days. This is NOT the government that I voted for!

The only thing that keeps going through my mind is: What are they trying to hide? You people even tried to hide the action you took.

Leave our open records law alone!

Sincerely,

J. Schmidt
