To exempt these communications by our elected officers of this State from public disclosure is as undemocratic as the methods used by the old Communist governments, Nazi Germany and other totalitarian governments to keep their citizens uninformed about the way their citizens were being governed! To do this by attempting to slip this past the Wisconsin public by a committee decision with no public participation seems to be the way our current government is going to continue to operate. Mr. Walker, members of the committee trying to slip this past our citizens, and members of our State legislature who participate in this kind of action, you are no better than the people who governed using totalitarian methods to do their business. You are a disgrace to the concept of Democracy. Shame on all of you.
