Subject: VERY Disappointed

Isn't this one of the reasons our founding fathers left those countries across the pond?
Secret meetings and rulers deciding for the "good" of the people.
Didn't Thomas Jefferson make sure that education is available to all men to educate themselves so a Democratic Republic would be possible?
Does that not imply that "we the people" are able to ingest and discern from public records what is really going on?
240 years ago there was honor to standing behind your words and deeds, as there should be today.
If we do not record history, we are destined to repeat it.
For the good or the bad.
Secrets lead to misunderstandings, lets not have any misunderstandings.
Let us choose to record and retain all available communications, and give our statesmen and women a chance to do their best for the people whom have entrusted them to their office.
