Subject: electronic communications

To the Public Records Board,

It is imperative to maintain open and transparent access to government on all levels. This includes all electronic forms of communication to include, but not limited to, text messages, emails, Facebook posts and all other forms of messaging. The Public Records Board must rescind its action to limit access to electronic communication by public employees. Public officials must not conduct any business in private and drawing the curtains on open government is unacceptable. Our open records must remain just that way - OPEN. The public has the right to know what business our legislators are conducting. We the public will be watching and using our votes to have representatives in office who support an open and transparent government.

Thank you,

Gina Teper
