Subject: electronic records belong to the citizens

I am writing to let the Board know I am extremely disappointed in your actions to limit access to electronic records. This appears to be a way to hide information which the public has the right to know. When my tax dollars are paying for electronic communication by public employees, the public has the right to see that communication. I am tired of this administration being less than truthful, despite their talk of "transparency". Please rescind your plan to limit the public's access to electronic communication by public employees.
