Subject: electronic records

I am furious with all of you. What gives you the right to take away my rights to know? I and everyone who lives in this state pays your salary, you work for us and we have every right to know what you do. What the hell are you trying to hide? Public records means that the **Public** has the right to know. I have a novel idea instead of trying to hide what you are do why not trying to do your jobs or maybe we should kick you all out on your butts and get people in your jobs who want to actually want to do it instead of trying to hide what is really going on. You all tried to do this last July, get off your butts and actually do what you were hired to do.
