Subject: electronic records

first: all of these records should be open and available to the public. I find it hard to believe that this would not an option for the people of this state to see and read what their elected and non elected people are up too. They should not be limited in any way or shape of form.

second: also meetings should not be held in secret so as to pass rules so pols can hide behind. Wisconsin has had an open government lets keep it that way. informed.....
