**Subject:** open records

Dear Board members,

I plead with your members to keep open records on so called transitory messages.

I became aware the other day that people are not using email, messaging (via Facebook), but rather the chosen mode of communication is indeed **phone messaging**.

Be proactive please and be aware technology is changing constantly and therefore we cannot be so naive to think that eliminating any form of messaging will not invite secrecy and abuse.

Thank you for your in-depth consideration.
