Subject: open records

How dare this board try to make text messages, emails and other communications secret. You are nothing more than a puppet group of the neocons that currently occupy our state government. This group has demonstrated time after time it cannot be trusted to do the right thing for the people of Wisconsin. The members of the Public Records Board should be ashamed of themselves for trying to gut the open records laws of this state. Last August you acted illegally by not posting a proper agenda, not taking proper minutes, and taking action on a non agenda item. You knew better when you did this but went ahead anyway. You all should be held accountable for your illegal actions.
