Subject: public records access limitations

To whom it may concern:

I absolutely & vociferously protest the secretive decision made last summer to limit access to public records. I want this to be rescinded immediately. The state Public Records Board has no business trying to keep law-abiding Wisconsinites from checking public records as they see fit. The key word here is "public!" This includes text messages, e-mails, Facebook posts & other electronic communications by public employees.

Wisconsin has historically been seen as a national leader with its progressive stances. The current political majority seems bent on tearing down Wisconsin democracy step by step. This will not be tolerated by Wisconsin residents. Our state motto is in danger of changing to "Backward" if things are allowed to continue in this fashion.

Please be aware that your actions are being watched, & that political consequences will follow should these tactics persist. I have lived in Wisconsin my entire life, & will not stand to see it democratically destroyed.

Sincerely,
Kaye Mehre
