Subject: transitory records

I am against the proposal to have transitory records, including all electronic communications (such as texting, etc.) used by public boards, commissions and government officials to conduct public business, to be exempt from public disclosure because they supposedly have only temporary value. Much of public business is conducted through electronic means. This new definition by the Public Records Board would close off access to thousands of important communications conducted routinely throughout the state of Wisconsin. Public business means that the public, the citizens of Wisconsin, have the right to have access to how our government is operating. Please stop shutting down democratic processes and checks and balances.
